CHARLES GREENE,	
SAM'L H. BOUTWELL,	

Report of Overseers' of Poor.

There is little change to note in regard to the affairs of the Almshouse. We have the past year added a water supply to the farm by putting in a wind-mill on the land of the Town near the Almshouse, which furnishes a never-failing supply of pure spring water, and is a great convenience, as it has been necessary in years past to cart water in the dry season for the use of the house. In the Report of the State Board of Charities our Almshouse is reported as A No. 1 in all respects, and is certainly a good home for our poor.

The inmates at present are most of them quite young, or so aged as to need almost constant care. There are twelve children under ten years of age, and there should be homes provided for some of them away from the Almshouse the present season.

The relief out of the Almshouse has been large, and is caused in a great measure by having a number of large families of children to provide for whom we did not think best to take to the Almshouse, as many of them will soon be able to provide for themselves; the bills at the Insane Hospitals have also been larger than usual. The sum of \$664 which has been paid out by this department will be reimbursed by other cities and towns.

We have provided for 839 tramps during the year, many of whom seem to be respectable men looking for work; but as a class they are a bad lot, and disagreeable to have anything to do with.

Report of the Chief Engineer

OF THE

Fire Department.

TO THE HONORABLE BOARD OF SELECTMEN :

Gentlemen, — In compliance with the Regulations of the Fire Department, I have the honor to render the following Report, and submit such recommendations as will meet the present requirements of this service.

The Department consists of one third-class steam fire-engine, and one horse hose-carriage ; one hand-engine, with hose-carriage ; 2900 feet of hose in good condition ; ladders, hooks, and ropes, at each engine-house.

The Board of Engineers consists of five members. There are sixteen men connected with the Steamer Company, and forty-five men connected with the Shawshin Company.

During the past year we have put a Steam-heating apparatus into the new Engine-house, which has thus far given entire satisfaction.

We have also purchased 1100 feet of new Cotton Rubber-lined hose, the Department now being well supplied.

There have been during the year twelve alarms of fire, as follows :

Feb. 17, 1884. C. L. Carter's building,	} Insurance

I would especially call your attention to the insufficient supply of water. There are many places in Town at which, in case of fire, it would be impossible for the department to render any assistance, and I deem it exceedingly important that the Town should take some action towards securing a supply of water for fire purposes.

We have examined and ascertained the capacity of all the reservoirs in Town, a report of which I submit for your inspection.

During the past year we have effected temporary arrangements for a Ladder Truck. Our late experiences have forcibly demonstrated the fact that the Town should purchase a light Truck without delay.

There is ample room in the new Engine-house for stabling horses, and should the Town deem it advisable to purchase horses to be used on the Highways, they could also be used to good advantage in this Department.

I also believe it advisable for the Town to purchase a new Engine for the Ballard Vale district, and would recommend the subject for your consideration.

I would recommend that \$2000 be appropriated for the running expenses of the Fire Department for the ensuing year.

O. B. HOWARTH,

CHIEF OF POLICE.

ANDOVER, Feb. 9, 1885.

Report of Cemetery Committee.

The Cemetery Committee herewith submit their Annual Report, together with the receipts and expenditures for the year ending February 2, 1885.

During the year the face-wall on the west side of the Cemetery has been extended twelve rods, and the avenues between the lots as laid out on the plan enlargement have been graded. General needed work about the Cemetery has also been done as the means at hand would allow.

It is very desirable that the face-wall should be extended on the southwestern side of the premises about twenty-five rods, ample material being furnished within the Cemetery limits. It is also necessary to grade the avenues with hard gravel, suitable for the purpose. We therefore respectfully ask an appropriation of \$300, together with the avails of lots sold during the ensuing year.

Thirteenth Annual Report

OF THE

Trustees of Memorial Hall.

Nothing of special interest in the history of the Library has occurred during the past year. With the exception of the frescoing of the Reading-room, which has much improved its appearance, and the construction of two new show-cases in the upper hall, no changes have been made.

We would call the special attention of all who are interested in preserving the history of the Town to the existence of these show-cases. They are for the preservation and exhibition of objects of various kinds which are in any way illustrative of the past of Andover. They will contain, in fact, the nucleus of a museum, small indeed, but not on that account, to be despised. We, of this generation, are still comparatively near the beginnings of the history of the Town, and objects which would be valuable, if brought together, are continually passing out of existence as rubbish, or into oblivion. It is therefore important that there should be a place where these may be collected, and where all the story they have to tell may be carefully preserved. Many specimens of Indian weapons and utensils have been found on Andover soil; and there is no way in which a collection of such articles could more certainly be made useful to the community, and tributary to the grateful remembrance of the donor, than by placing them in a museum of this kind. There are probably many papers in private families which

would be valuable as illustrations of by-gone customs, were they where they could be seen. There are also relics of the wars through which our nation has passed, which are of the greatest interest to those who are growing up to inherit our traditions, and which will increase in value as time goes on. It is also desirable that we should have as large a collection as possible of the animals and birds of this region; and all rare specimens will be welcomed and preserved, together with the names of the donors. The larger such a collection becomes the more interest there will be in adding to it. But the greatest honor is due to those who help it in the day of small things.

The annual examination of the Library shows it to be in good condition.

Town Clerk's Report.

TO THE SELECTMEN OF THE TOWN OF ANDOVER :

Gentlemen, — I present to you my Report for the Year 1884.

“Facts about life and death have a perpetual interest and a horrid sort of charm for the average reader. Some recent data in this direction have just been made. They show that in this world there is an average of 70 births a minute, of 100,000 births a day, and 36,792,000 births a year. There is an average of 67 deaths a minute, of 97,790 deaths a day, and of 35,639,835 deaths a year. There are 2010 more births than deaths every day. There are more males than females born.”

The Vital Statistics are as follows :
